

get the right advice

As a new student, we know there's lots of information to absorb and sometimes questions go unanswered.

That's why new first year students in ECMS have been assigned a staff member to guide them in relation to academic or other issues that can crop up along the way.

Known as 'Personal Mentoring', this program is designed to enhance the student experience and foster the open and engaging culture that exists at the University of Adelaide.

Mentors will be in touch via email during Semester 1. Students are encouraged to spare a few minutes to meet their mentor, online or in person, and take advantage of their expertise.
