

## The Mechatronic Engineering Student Prize

### PRIZE RULES

#### **Establishment**

This Prize has been established by the School of Mechanical Engineering to recognise the highest achieving final year Mechatronic Engineering student as a result of a contribution by Rockwell Automation Australia Ltd.

In support of the prize Rockwell Automation Australia Ltd shall provide to the University a voucher to the value of \$500.00.

#### **Value**

The prize will be acknowledged with a certificate and voucher to the value of \$500.00.

#### **Eligibility**

The prize will be awarded annually by the University to eligible students in the Bachelor of Engineering (Honours) (Mechatronic) degree or associated double and combined degrees who are completing their final year of study in the year of the award.

#### **Selection of Candidate**

The Head of School of Mechanical Engineering or nominee will award the prize to the final year student who has completed all of the requirements for the degree and achieves the highest weighted average mark including all courses presented towards the degree.

If there is no candidate of sufficient merit in a given year then the prize will not be awarded in that year.

If there is more than one candidate of equal merit, then each recipient will receive a certificate.

#### **Variations**

The University may vary the rules from time to time in a manner consistent with the original objectives of the prize.

Rules approved by Deputy Vice Chancellor & Vice President (Academic)
